

**NOVEMBER 3**

# **Vote NO on Prop 25**

## **Unfair. Unsafe. Costly.**

---

Prop 25 eliminates the right to put up bail for anyone in California. Imagine trying to help a loved one accused of a crime secure their release to answer the charges against them - and having their freedom depend on computer algorithms and predictive models that have been shown to be racially biased.

### **HERE ARE THE FACTS ABOUT PROP 25.**

#### **Replaces bail with racially biased PROFILING**

Prop 25 will put computer algorithms in charge of deciding who goes free and who stays in jail pending their trial. These are the same algorithms banks and insurance companies used to deny bank loans and auto coverage. Civil rights groups including the NAACP and United Latinos Vote oppose Prop 25 because these algorithms make racial bias worse in the justice system.

#### **Increases bureaucratic delays and pretrial detention**

Like other overburdened government agencies such as the DMV, Prop 25's new bureaucracy will lead to delays in the justice system that could keep people locked up for days - leading to job loss, missed bills and more time away from their families.

#### **Eliminates every Californian's right to the surest and fastest release from jail**

In our justice system, people are innocent until proven guilty, and bail is often the quickest form of pretrial release. Prop 25 removes this constitutional right and puts people at the mercy of computers and government bureaucracy.

**This November, remember to VOTE NO on**  
**PROP 25**  
• UNFAIR • UNSAFE • COSTLY •
